SUMMARY

Information Science & Engineering graduate (CGPA: 8.56) with a strong foundation in Java, SQL, Software Testing, and Software Engineering fundamentals. Hands-on experience through internship, academic projects, and professional training in Manual Testing, Automation Testing, and API Testing. Strong analytical, communication, teamwork, and problem-solving skills with a continuous learning mindset. Ready to contribute, learn and grow in a collaborative work environment.

EDUCATION

Bachelor of Engineering in Information Science and Engineering Global Academy of Technology CGPA: 8.56 Bengaluru	2021 – 2025
Class XII State Board Deeksha Centre for Learning (DCFL Main Campus) Percentage: 88% Bengaluru	2020 – 2021
Class X ICSE Varin International Residential School Percentage: 88% Tumakuru	2018 – 2019

SKILLS

Programming: Java (OOP, Exception Handling, Collections), SQL
Software Testing: Manual Testing, SDLC, STLC, Test Case Design, Defect Life Cycle, Functional Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, Regression Testing, API Testing, Agile Methodology
Automation Testing: Selenium WebDriver (Basics), TestNG (Basics), Page Object Model (POM), Automation Framework Basics
Tools: Postman, Eclipse IDE
API & Database Testing: REST API Testing (Postman), HTTP Methods, JSON Validation, Response Validation, Status Code Validation
Data Analytics & Preprocessing: Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, NumPy, Pandas.
Data Engineering Fundamentals: ETL/ELT Pipeline, Data Warehouse/Lake/Lakehouse Fundamentals, Data Modeling.
Cloud Fundamentals: Amazon S3, AWS Glue, AWS Lambda, Amazon Athena, AWS IAM.
Professional Skills: Analytical Thinking, Communication, Teamwork, Adaptability, Attention to Detail, Time Management, Continuous Learning.

TRAINING & INTERNSHIP

Software Testing Trainee -- QSpiders, Bengaluru	Feb 2026 – Jun 2026
- Learned Manual Testing concepts including SDLC, STLC, Test Case Design, Defect Life Cycle, and Agile methodology. - Gained hands-on exposure to Selenium WebDriver, Java, SQL, REST API Testing using Postman, and basic Automation Testing. - Practiced software testing through real-world scenarios and project-based learning.	
AI/ML Engineer Intern Shamgar Software Solutions, Hyderabad	Oct 2025 – Jan 2026
- Worked on data preparation, data analysis, and dataset validation for machine learning projects. - Collaborated with mentors and team members to complete assigned project activities while strengthening analytical thinking, communication, teamwork, and problem-solving skills.	

ACADEMIC PROJECTS

VTiger CRM Testing -- Selenium WebDriver Java TestNG POM Maven Jenkins
- Designed and developed a Hybrid Automation Framework using Page Object Model (POM). - Automated and executed test scenarios across multiple CRM modules using Data-Driven Testing. - Gained hands-on experience in automation testing, defect identification, and software quality assurance.
REST API Testing -- REST API Postman JSON HTTP Methods
- Tested REST APIs by validating different request and response scenarios. - Verified API functionality and documented testing observations. - Gained hands-on experience in API testing and application validation.
YouTube Trending Data Pipeline on AWS
- Built a cloud-based data engineering project to collect, transform, and prepare YouTube trending data for analysis. - Used Amazon S3 for storage, AWS Glue for data cataloging, AWS Lambda for data transformation, Amazon Athena for querying, and AWS IAM for secure access management. - Gained hands-on understanding of data ingestion, ETL concepts, cloud-based data processing, and preparing structured data for analysts.
